REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's arguments with respect to Iwai et al, Kimura, JP 62-178905, Wakai et al and Kobayashi et al are persuasive because of the reasons that an uncured portion is *not necessarily* formed under the black stripes in the above references. See Applicant's remarks on pages 4, 7, 8, 9 and 10. The examiner has agreed with Applicant that an uncured portion is *not necessarily* formed under the black stripes because when irradiating UV light at the side of the substrate which does *not* have the black stripes formed thereon, the UV light is not blocked or absorbed by the black stripes. However, it is *not* agreed with Applicant's remarks that inherency cannot be relied upon the references which have the date *later* than that of the instant invention. It is noted that the inherent feature is *not* needed to be recognized at the time of the invention. See M.P.E.P. 2112 under the heading "II. Inherent Feature Need Not Be Recognized At The Time Of The Invention".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Tai Duong at telephone number (571) 272-2291.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
